

TEMPORARY LED WORK LIGHT

- Built-in battery pack, rechargeable
- Outdoor portable lighting
- High Brightness
- DC24V

Stepless dimming

Multi-function lighting

USB interface

Chargeable

IP54

Long battery life

Illuminating brightness Large range, high brightness, long range, long life of the bulb, The average service life is more than 50000 hours. Indoor and outdoor emergency lighting, with the characteristics of easy to carry, fast layout, is a good helper for emergency lighting. Aluminum radiator body. Air convection design between up and down of the lamp, promoting the heat dissipation function so that could ensure the lamp life span.

► Features

- **Four style light modes:** Gatling is a multiple portable light with four style light modes for different application.

1. 360° mode: all the front and rear lights are on;
2. 180° mode: the front half of the lights are on;
3. Top mode: the top of the lights are on
4. Warning light: It can be used for road rescue or for help

- **Built-in 18650 battery pack**

The battery pack has a built-in battery IC chip management system, which can manage overcharge protection, over-discharge protection, discharge over-current protection, charging over-current protection, short circuit protection, over-temperature protection at charging and discharging points to protect personal safety during the use of lithium batteries.

- **Detachable power cord**

The power cord is detachable. There is a charging port on the fixture, which can unplug the power cord when using the built-in battery. It is more convenient for mobile use. And there is also a USB power output port on the fixture, you can charge mobile electronic products.

- **Knob switch function**

The left knob mainly controls the light mode like 360°/180°/spotlight/warnlight mode, the right knob mainly controls the product switch and brightness, and the power capacity can be checked in the middle of the knobs.

- **Different usages**

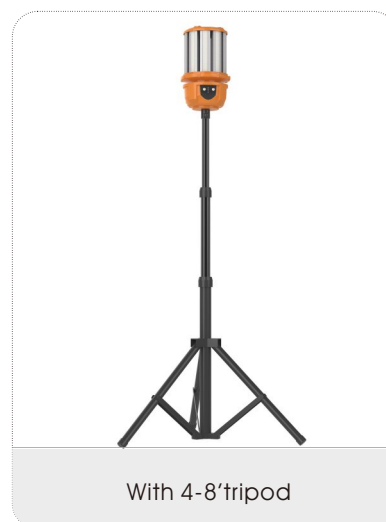

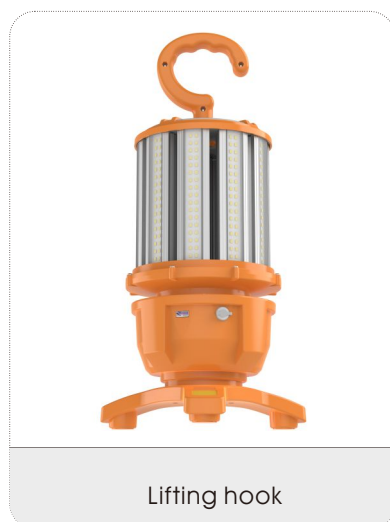

Portable with your hands, hanging with hook, tripod stand for options

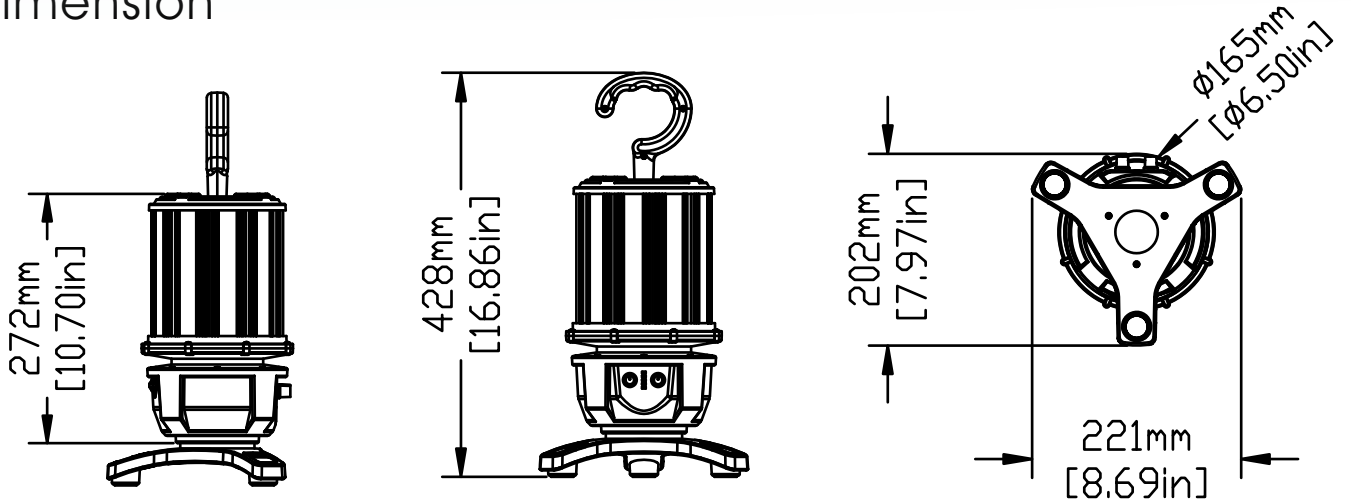

DATA SHEET

Power	50W
Model	BB-HJD-50W-Q3
Luminous Flux	Mode1: 7500lm \pm 10%; Mode2: 4000lm \pm 10%; Mode3: 2000lm \pm 10%
Dimensions (Lamps)	\varnothing 165X428mm
Net weight	2.2kg
Luminous Efficacy	\geq 150lm/w
Voltage	100-277VAC50/60Hz
CCT	2700K SW / 3000K WW / 4100K NW / 5000K DW / 5700K CW / 6500K SCW
CRI	80+
Battery capacity	14.8V/7800mAh
USB output	5V/2A
Charging time	8H
Life Span	50,000 hours at 25 $^{\circ}$ C
Operation Temp.	-40 to +45 $^{\circ}$ C
Driver	Internal Power Supply.
Light Source	2835 SMD LED
Beam Angle	360 $^{\circ}$ or 180 $^{\circ}$
Cover	Transparent cover(default)
Lamp Base	1.Lifting hook;2.Lifting ring 3.With 4-8'tripod
PF	>0.95
Warranty	5Years
